In Iolite

You returned with an "I'm home"
And stayed by me
Stopped by the stoplight
Things you want to say

Not sleeping 'til morning
Look at the colors of the sky
It's just a year
Let's get out of here

Hesitating on the back road
It's here again
You didn't want to
Step on the cracks

Let's get out of here

I'm still waiting in iolite
Waiting in iolite for your return
I'm still waiting in iolite
Forever, until we meet again

Hung on that lifeline
Was your heart
Let's stop here
Let's go a little too far

Not sleeping 'til morning
Look at the colors of the sky
It's just a year
Let's get out of here

I waited in iolite
Forever, until we could meet again

Another today
Another year, and
A thousand tomorrows
And a thousand more to come
Are right here
Ah
